Carol Rose

Item 1:

I believe this District, lead by its Board of Directors, should start immediately to educate the ratepayers about the process of the 218 and the necessity of moving successfully through this proposed rate increase.

I believe the proposed rate increase of 2017 was a surprise to voters, thus making the playing field ripe for disinformation to dominate.

This education should start immediately with a flyer in the June billing, be put on the website (on the home page), handouts available at the District office and take all other forms that will reach as many ratepayers as possible. I would personally be willing to distribute flyers in our neighborhoods and recruit others to help.

Item 2:

I am wondering if the website causes a Brown violation because it shows DPM meetings on first Tuesdays at 6:30 pm
